EXECUTIVE SUMMARY

AI product builder and transformation leader. Creator of the Business Value Framework (BVF), published to the Model Context Protocol registry this week as **aibvf-mcp v0.2.0**. Publisher of The Transformation Brief, a weekly intelligence product for senior executives with **over 400 subscribers in its first two weeks**. More than fifteen years of client partnership and P&L leadership at HPE, Accenture, Microsoft, Atos, and Salesforce, accountable for **300 million dollars of EBITDA uplift** and **50 million dollar global account P&Ls**. Currently shipping AI products from ideation to registry using Claude Code, with more than a dozen production-grade AI agents live in the past eighteen months. Global Executive MBA with Artificial Intelligence in progress at the University of Hertfordshire. Executive Leadership distinction from Saïd Business School, Oxford. Anthropic AI Fluency certified.

KEY ACHIEVEMENTS

aibvf-mcp v0.2.0, Model Context Protocol Registry, April 2026

Shipped this week. Six stdio tools (score_initiative, recommend_improvements, calculate_pace_layer_drag, validate_portfolio, get_benchmark, list_taxonomy) that any Claude agent can invoke as a pre-flight check against four dimensions of AI readiness. Deterministic scoring engine, no network dependencies, MIT-licensed open protocol. Benchmarks drawn from McKinsey, Gartner, BCG, Deloitte, Forrester, Accenture, and ServiceNow. **Worked example**, a 400 million euro retailer running a Gen2 CX initiative on traditional readiness returns Fix at confidence 58, with net 11,2 to 39,2 million euro value swing.

Creator and Architect, Business Value Framework (BVF)

Proprietary decision framework connecting AI investments to revenue, cost, and EBITDA outcomes. Produces **Accelerate, Fix, or Stop** classifications with Decision Confidence Scores, grounded in McKinsey, Gartner, BCG, Deloitte, Forrester, Prosci, and EY-Oxford Saïd benchmarks. In active use across healthtech and enterprise advisory engagements. First iteration built at Accenture 2016-2017, now in its fifth generation.

Publisher, The Transformation Brief

Weekly LinkedIn newsletter for senior leaders navigating AI transformation through the lens of management, governance, and behaviour. Built from scratch to **over 400 subscribers in two weeks** across Directors, Partners, and C-suite executives. Paired with The Blueprint Index, a monthly subscriber diagnostic that tests one driver of AI readiness each issue.

EBITDA Growth Delivered, 300 Million Dollars

Accountable for 300 million dollars of EBITDA uplift and 25 million dollars of cost reduction at Salesforce EMEA North through client partnership leadership, combining portfolio strategy with C-suite relationship architecture.

Skytrax Best Digital Services Award 2023, Schiphol Group

Led the launch of the world's first all-language digital airport kiosk across 20 languages with Google Cloud and Atos, integrating AI-driven language processing with traveller experience design.

Cost Reduction, 4 Million Dollars Annual, Philips Global Service Desk

Reduced call handling time and global service desk ticket processing by 30 percent through process redesign and intelligent automation.

EXPERIENCE

JAN 2025 — PRESENT

Independent AI Transformation Advisor and Product Builder

Shipping AI products to enterprise advisory clients and to open registries. Creator of aibvf-mcp (Model Context Protocol), the BVF framework, The Transformation Brief, The Blueprint Index, and more than a dozen Claude Code agents for workflow reconstruction and decision governance. Advising C-suites on AI portfolio classification and governance, grounded in proprietary decision-confidence scoring.

APR 2025 — PRESENT

Advisory Member, Infoquest

Delivering data-driven strategic insights supporting membership growth and impact measurement. Evaluating business platforms for AI and digital transformation opportunities. Developing go-to-market strategies that apply AI and change management principles.

MAY 2025 — DEC 2025

Growth Strategist, Strategos

Led AI-enabled growth initiatives producing 20 percent operational efficiency gains. Advised leadership on sustainable growth strategies applying Generative AI, agentic AI, and data governance across the portfolio.

MAY 2022 — JUN 2024

Regional Vice President, Client Partner EMEA North, Salesforce B.V.

Directed cross-functional teams delivering **300 million dollars of EBITDA uplift** and **25 million dollars of cost reduction** through AI-enabled strategic frameworks and digital transformation programmes. Recovered a 1,2 million dollar annual services agreement by rebuilding client trust at C-suite level. Directed four consulting engagements delivering timely global rollouts of Salesforce and AI solutions.

MAR 2019 — MAY 2022

Global Vice President, Atos B.V.

Oversaw **50 million dollars of annual revenue** as part of the Royal Philips strategic partnership, directing profitability, digital transformation, and operational efficiency across the global account. Achieved 25 percent global expansion through strategic realignment, cloud migration, and cultural integration with Philips leadership. Secured a 3 million dollar contract for third-party device onboarding, opening non-IT sectors for the first time in five years.

DEC 2017 — JAN 2019

Global Services Executive, Microsoft B.V.

Grew services revenue by 60 percent, scaling from 750 thousand to 1,2 million dollars, through strategic alignment of Azure, Microsoft 365, and Mission-Critical Support. Produced 30 percent growth in client adoption of Microsoft services via targeted consulting and digital adoption strategies.

AUG 2016 — DEC 2017

Associate Director, Technology Products, Accenture B.V.

Led digital transformation and outsourcing programmes in financial services. Generated 3 million dollars in service contract revenue. **Built the first iteration of the Business Value Framework** to strengthen C-level collaboration and decision-making, later evolved into the BVF and then into aibvf-mcp.

FEB 2013 — JUL 2016

Philips Global Account Manager, Hewlett Packard Enterprise

Managed a **50 million dollar P&L** for the Philips global account, securing 8 million dollars in software deals across enterprise technology. Revitalised an underperforming Tier 1 account, raising client satisfaction and NPS.

EDUCATION

Global Executive MBA with Artificial Intelligence, University of Hertfordshire

2026 — 2028, in progress

AMBA-accredited programme, top 2 percent of business schools worldwide. Focus on integrating AI into executive decision-making and business strategy.

Executive Leadership, Saïd Business School, University of Oxford

2024 · Distinction, 99,5 percent

Focus on leading with empathy, resilience, and purpose at executive level.

EXECUTIVE REFERENCES

Frans van Houten · Former CEO, Royal Philips | Non-Executive Director, Novartis

> "Craig is a team player and an achiever. So much can be learned and reinvented, but it always starts with endurance, grit, and determination, which sets apart the achievers from the rest."

Elie Girard · Former Global CEO, Atos

> "Craig was one of the most compelling and relevant account executives I have seen, with a unique ability to create and maintain relationships with C-level executives that I have rarely seen in my career."

Henk Jan Gerzee · Chief Digital Officer, Schiphol Group and Air France-KLM

> "Craig is simply a fantastic person to work with, high on values, high on pace, high on working together to unlock 10x results."

Sean Carney · Chief Design Officer and Executive Advisor to C-suites

> "Craig's empathic ability to go one step further in understanding both corporate culture and individual needs ensures he delivers successful outcomes. A passionate advocate for a human-centric approach to technology."
